

Szilvia Varga

Full Stack Software Developer

Vienna, Austria

LinkedIn : <https://www.linkedin.com/in/szilviavarga1/> | GitHub : <https://github.com/Szilvi489>

PROFILE

Vienna-based full stack software developer with hands-on experience across web development, backend logic, APIs, databases, testing, and quality-focused processes. I enjoy building digital products that combine structure with creativity, and I am looking to keep growing in a collaborative environment with clear onboarding, supportive mentorship, and strong engineering practices.

EXPERIENCE

Software Developer Pensionsversicherungsanstalt PVA Österreich

Apr. 2023 - Present

Current role | Vienna, Austria | Present

- Currently working in software development with exposure to web applications, backend logic, APIs, databases, testing, and quality-focused delivery.
- Contributing in an environment where structure, collaboration, and reliable execution matter.
- Built a broad technical foundation across development and QA-related workflows.

Photo Assistant

Mar. 2020 - Mar. 2023

Alongside informatics studies

- Supported photo productions with studio or location preparation, equipment handling, on-set assistance, and practical problem solving.
- Developed a strong eye for detail, visual composition, adaptability, and calm execution under time pressure.
- Worked closely with creative teams and clients in hands-on production environments.

Gastronomy

Earlier experience | Hotels, bars, and restaurants

- Worked in gastronomy across different hospitality settings including hotels, bars, and restaurants.
- Strengthened customer communication, flexibility, multitasking, and reliability in fast-paced environments.

EDUCATION

FH Campus Wien, University of Applied Sciences, Vienna

2022 - 2023

- One year of studies with focus on quality assurance, testing, requirements engineering, and software engineering practices.
- Focus areas: ISTQB, IREB, Scrum, testing strategies, quality management, and requirements engineering.

Kolleg Informatik, HTBLVA Spengergasse, Vienna

2020 - 2022

- Practice-oriented informatics program with a strong base in software development, data, networking, and web technologies.
- Focus areas: Java, SQL, relational databases, HTML, data modeling, project management, and CCNA.

Matura, Gymnasium, Budapest

2014 - 2015

- Completed gymnasium studies and the Matura.

Mode und Textil, Berufsschule fuer Mode und Kunstgewerbe, Budapest

2007 - 2010

- Vocational fashion school with a practical foundation in textile work, garment construction, sewing techniques, and design basics.
